01. Introduction (To everyone who want to check the application status of the UAS certification, handling fees payment, and reapplication)

- In the Drone Information Platform System, you can apply for issuance of UAS Certification, change attributes, renew the application, apply for cancellation, withdraw the application, check the application status, request an application for issuance for a skill certificate to representative, and request a representative for other than an application for issuance of UAS Certification.
- This manual describes how to operate the Drone Information Platform System, so please refer to this when carrying out necessary procedures.
- In addition to this manual, please refer to the [FAQ](#) page on the Drone Information Platform System for a deeper understanding of the system.

02. Matters that require attention when using the Drone Information Platform System

- If the operation of the Drone Information Platform System is suspended (inactive state) for 60 minutes or longer, you will be required to restart the process. This security function lowers the possibility of a third party viewing your screen and leaking your personal information while you are away from your computer or smartphone.
- If you are unsure of what information to enter in each of the forms or how to enter it, hover your cursor over the  mark next to the field name in the form, to see the information to be entered, as well as a description of the input information to be entered in the form. (If you are using a smartphone, tap on it to display the description.)
- Do not press any browser buttons, such as "Back" or "Refresh", while using the system. Doing so may affect the normal functioning of the system.
- Do not attempt simultaneous login from multiple terminals; this may cause the system to malfunction.
- For the unmanned plane registration system, the new system for achieving Level 4, and other rules of flight, refer to the [Ministry of Land, Infrastructure, Transport and Tourism website](#)

*Click on the link to open the external site.

03. Checking Application status/Handling Fees payment

03-01. Requirements for UAS Certification Application status check/Handling fees payment (1/2)

- The payment of handling fees can be done by **“ATM”** as well as **“Internet Banking”**.

- Further, regarding the method for paying later, please check the manual [“Payment of Handling Fees”](#) of Drone/UAS Information Platform System - Registration.

03-01. Requirements for UAS Certification Application status check/Handling fees payment (2/2)

- Requirements for the procedure will be different depending upon the payment method. Please confirm before proceeding.

Various information	Item
Information required for payment	• Payment number • URL for payment
Other *Different as per payment method	• Drone Information Platform System Account • Credit Card • Cash Card • Internet Banking Account Information

04. Steps for checking UAS Certification Application status /Handling fees payment

Check the application status for UAS Certification on Drone Information Platform System, and pay the handling fees.

Checking Application status/Start the Payment

Step 1 : Login to the Drone Information Platform System

Enter your login ID and password to log into the Drone Information Platform System.

Step 2: Proceed to list of applications status

Select the "Application Status check/Withdraw/Payment" button on the main menu.

Step 3: Check the application status

Press the "Details" button to check the details on application status/application description.

Step 4:Payment of Handling Fees

Press the "Select Payment" button to pay handling fees.

Payment for registration and license tax completed

An email will be sent to applicant's email address.

Once the application description is confirmed by Japan Civil Aviation Bureau, the handling fee payment number and payment URL will be sent to the email address registered in the account.

After mail notification, handling fees payment can be done.

After checking the application description, payment of handling fees is required. Please check [here](#) for payment method.

04-01. Step 1: Log in to the Drone Information Platform System (1/3)

Access to the [DIPS2.0 top page](https://www.ossportal.dips.mlit.go.jp/portal/top/).

(<https://www.ossportal.dips.mlit.go.jp/portal/top/>)

Click the "Login" button.

On the Log In page, enter your ID and password (set up when opening the account) and press the "Log In" button.

Points to note!

You need a Drone Information Platform System account to log in. If an account has not been set up, then open an account first.

*The login ID is 3 letters + 6 numbers.
(Example) ABC123456

04-01. Step 1: Log in to the Drone Information Platform System (2/3)

Upon successful login, the name of the registered account will appear in the upper right corner of the "DIPS2.0" portal screen.

Scroll down the screen and go to the appropriate procedure by clicking on the various procedure buttons in the "List of UA-related procedures based on the Civil Aeronautics Act".

Please see the next page for buttons for various procedures.

04-01. Step 1: Log in to the Drone Information Platform System (3/3)

The buttons for the various procedures in the "List of UA-related procedures based on the Civil Aeronautics Act" are shown below.

Clicking the buttons for the various procedures will take you to the top page of the individual procedures.

Procedure in the case of a specified flight

Procedure in the case of a specified flight

Check the procedure

The following specified flights require prior permission and approval. For details, [see here \(the website of the JCAB\)](#).

(Specified flights)

- Flights near an airport, etc., in air space for emergency actions, or 150 m or more above the ground
- Flights above a densely inhabited district
- Nighttime flights
- Flights out of the visible range
- Flights within 30 m of a person or property
- Flights above an event venue
- Transport of hazardous materials
- Object drop

It is also necessary to check the flight plans of the other UAs, the flight-prohibited air space, etc. and notify your flight plan before flying the UA. For details, [see here \(the website of the JCAB\)](#).

It requires prior UA registration, so if you have not registered your UA, perform "UA registration."

Start flight permission and approval application

Start notification and checking of a flight plan

UA registration procedure

UA registration procedure

Check the procedure

UA of 100g or more is subject to the control of the Civil Aeronautics Act.
No flights of unregistered UA are allowed. After getting a registration ID for the UA, in addition to displaying a registration ID on the Unmanned Aircraft, the aircraft must be equipped with a remote ID function.

Start the UA registration application

Procedures in the event of an accident, etc. related to a UA

Procedures in the event of an accident, etc. related to a UA

Check the procedure

In the event of the following accidents, etc., the operator has to report the details of the accidents, etc. to the Minister of Land, Infrastructure, Transport and Tourism. For details, [see here \(the website of the JCAB\)](#).

"Accidents"

- Death or injury caused by the UA (serious injury or more)
- Damage of a property owned by a third party
- Collision or contact with an aircraft

"Serious incidents"

- Recognized to have had a possibility of collision or contact with an aircraft
- Injury caused by the UA (minor injury)
- Situation that the UA becomes uncontrollable
- Ignition of the UA (limited to an occurrence during the flight)

Start the reporting of an accident, etc.

Acquisition procedure of UAS certification and UA remote pilot certification

Acquisition procedure of UA certification and UA remote pilot certification

Check the procedure

Flying a UA above a third-party land out of visible range without any accident or omission of permission or approval in a certain specified flight requires UA certification of the UA to fly and UA remote pilot certification of the operator. For details of UA certification and competence certification, [see here \(the website of the JCAB\)](#) and [here \(the website of the JCAB\)](#), respectively.

Start the UA certification application

Start the skill certification application

04-02. Step 2: Proceed to list of applications status

UAS Certification Menu

Click here if you want to complete the procedure in person

UAS Certification New Application

You can apply for a new UAS Certification. For new applications, identification documents and aircraft information are required.

Check application status / withdrawal / payment

You can check the status of applications for new applications and changes, and withdraw applications.
* In the case of the national government (Ministry of Land, Infrastructure, Transport and Tourism only), you can proceed with the payment of fees for new applications, etc.

Confirmation of UAS Certification

You can check the information related to UAS that have obtained UAS Certification.

Change of UAS Certification

You can change the contact information on the registered UAS Certification.

Expiration date update

You can renew the validity period of a registered UAS Certification. In addition, you can also apply for design changes for Not Type Certification from this menu. In addition, when updating or changing the design of a UAS that has not been approved for type, it is necessary to coordinate the inspection contents with Registered Unmanned Aircraft Inspection Organization or the Civil Aviation Bureau of the Ministry of Land, Infrastructure, Transport and Tourism in advance.

Deleting UAS Certification

You can delete a registered UAS Certification.

Request/Termination of proxy

You can make the necessary settings when requesting a proxy to perform various procedures or canceling a request to a proxy.

Click here if you want to go through the procedure by an agent.

+

Press the “Application Status check/Withdraw/Payment” button on the UAS Certification menu page.

04-03. Step 3: Check the application status details (1/2)

List of UAS certificate application status

A list of applications is displayed.

It may take some time for the application details to be reflected in the application status list.

You can check the details of your application status by pressing the Details button.

You can pay the fee by pressing the "Payment" button.

Press the "Re-Apply" button to re-apply for correction instructions.

You can withdraw your application after checking the details of your application status by pressing the "Withdraw" button.

You can resume a suspended application by pressing the "Resume Creation" button.

The search results have exceeded the processable limit, so up to 100 are displayed.

Press the "Payment Selection" button.

Please refer to [Drone/UAS Information Platform System-Registration Manual](#) for payment method.

05. Re-Application of UAS Certification

05-01.Requirements for UAS Certification Re-Application

Please prepare the following information for UAS Certification Application.

Various information	Item
Information on Applicant	• Full name • Date of birth • Phone Number • E-mail address • Home Address/Address of the person • Address to send documents
Plane information	• Class of UAS Certification/Type name/Registration number/New product classification/UA Serial Number • Full Name or Name/Location of the head office or the main office of the Designer • Full Name or Name/Location of the head office or the main office of the Manufacturer • UA Category/UA weight/Weight category/maximum take-off weight • UA size (Width/Length/Height)
Other	• Drone Information Platform System Account • Information on Handling Fees

*If the Individual Number Card is used for identity verification, then since the applicator's information of home, name, date of birth, home address/address of the person will automatically reflect on the information acquired from face information, then the changes cannot be made from application input screen.

Those who want to change, please change the information on Individual Number Card in advance.

06. Steps for Re-Application for UAS Certification

Check the application status for UAS Certification on Drone Information Platform System, and reapply.

Re-Application start

Step 1 : Login to the Drone Information Platform System

Enter your login ID and password to log into the Drone Information Platform System.

Step 2: Proceed to list of applications status

Select the "Application Status check/Withdraw/Payment" button on the main menu.

Step 3: To revise the UA Information

Press the "Details" button to check the details on application status/application description.

Step 4: Verify the Application Information

Review the entered information and apply.

Step 5: Verification of Arrival

Since a confirmation mail will be sent to those who have re-applied for UAS Certification, so open the mail and verify its arrival.

Re-Application for UAS Certification is completed

The details of your application will be checked by the Japan Civil Aviation Bureau, and you will be notified by email when the confirmation is complete.

Once the application description is confirmed by Japan Civil Aviation Bureau, if the revision is required, revision request will be sent to the email address registered in the account.

After mail notification, re-application can be done.

06-01. Step 1: Log in to the Drone Information Platform System (1/3)

Access to the [DIPS2.0 top page](https://www.ossportal.dips.mlit.go.jp/portal/top/).

(<https://www.ossportal.dips.mlit.go.jp/portal/top/>)

Click the "Login" button.

On the Log In page, enter your ID and password (set up when opening the account) and press the "Log In" button.

Points to note!

You need a Drone Information Platform System account to log in. If an account has not been set up, then open an account first.

*The login ID is 3 letters + 6 numbers.
(Example) ABC123456

06-01. Step 1: Log in to the Drone Information Platform System (2/3)

Upon successful login, the name of the registered account will appear in the upper right corner of the "DIPS2.0" portal screen.

Scroll down the screen and go to the appropriate procedure by clicking on the various procedure buttons in the "List of UA-related procedures based on the Civil Aeronautics Act".

Please see the next page for buttons for various procedures.

06-01. Step 1: Log in to the Drone Information Platform System (3/3)
